.education {
    University of Maryland, College Park, May 2015
    B.A. Economics, Minor: Business Analytics
}

.tech-skills {
    languages/frameworks/libraries: Javascript(ES6), React.js, Node.js, LESS(CSS), MySQL,
                                     Elasticsearch, WordPress, HTML, PHP;
    other programs: Adobe Premier Pro, Adobe Photoshop, Adobe InDesign, Final Cut Pro X,
                    Microsoft Office Suite;
}

.work-experience {
    Social Tables - Software Engineer {
        Jan 2015 - Present: Worked with multiple teams supporting and creating multiple
        products for the events and hospitality industry using technology such as
        Node.js, React.js, ES6, LESS, Elasticsearch, and more.
    }

    Spoke LC - Software Engineer {
        Jun 2014 - September 2014: Acted as the sole engineer of a five-person startup.
        Worked with the Wordpress platform, PHP, JQuery, Ajax, and other libraries to
        create tools for clients that helped them maintain their organization's website
        and their members in a presentable and easy-to-use content management system.
    }

    Dow Jones & the WSJ - IT Blogs Team Intern {
        Summer 2013: Created and maintained Wall Street Journal blogs as a technical
        intern using the WordPress platform while incorporating HTML, PHP, and XML
        skills; use XML and DTD skills for Quality Assurance to solve errors in the
        backend portion of the blog content management system.
    }

    TechChange - Web Developer Intern {
        Summer 2012: Worked on web development for a growing startup using PHP, MySQL,
        HTML, CSS, GitHub on the WordPress platform; analyzed code for functions that
        needed improvement and formed blueprints in order to execute and push changes.
    }
}
